CATCH THE HALAAL WAVE

Knowledge and trade are the lifeblood in the development of nations for it teaches the value of human capital and enterprise and the responsibilities that go with it. Countries are no longer individual islands but are families of the global village communicating in borderless cyber world. Transactions are effected between ever-growing international food producers who want to serve a burgeoning market where the consumer is more conscious of Halaal than ever before.

The Noble Quran and example of our Prophet Muhammad (peace be upon him) encourage trade and Halaal earnings. Surah 4 Verse 29 of the Noble Quran reads:

"... let there be amongst you traffic and trade by mutual goodwill."

Conferences and exhibitions are still one of the most effective ways to generate positivity through discussion, analysis and networking. To navigate your way in the Halaal economy, weather the storm and anchor in the harbour of success, we invite you to attend our 5th International Halaal Conference on Monday, 16th July 2012. Top international and local specialist speakers will be presenting papers to broaden your horizons. [Click here for details](#)

The conference is held in conjunction with the Africa Big 7 and SAITEX Exhibitions between 15th and the 17th of July at Gallagher Estate Midrand. It is the continent's largest annual trade event with hundreds of local and foreign exhibitors attracting thousands of buyers. (for details [click here](#))

Inspire and be inspired – spend the day with us
