

RAINBOW AND EARLY BIRD CHICKENS ARE HALAAL

Notwithstanding rumours based on contradictory, questionable and untested evidence, SANHA through its Halaal program, onsite supervision and unfettered inspections, stands by the testimony of its Ulama that Rainbow, Bonny Bird, Earlybird and Goldi products are Halaal.

Many prominent Ulama have visited some of the plants and endorse our assurance that the required conditions for validity of Halaal slaughter are stringently met.

Halaal certifying bodies too, by their own certification, approval of certification of others or acceptance of the products in their certification at downstream level accept and endorse the Halaal status.
