Subject: Re: Majlis dealing in Pork ?

Salaams, I stand 'proudly' as a threat to your =rganisation as you have mentioned my name and email on your website. It is a =hallenge in the sense that I received so much praise emails from people I never knew supported us and not you, Sanha. The challenge is I must not let this weaking my Imaan causing ujub in me. You have done me a great =avour in islaah and may Allah Ta'ala return the favour to you. May he guide you =o gain your credibility as before the chicken war started.

Was-salaam

MAJLIS DEALING IN PORK?

With their unjust vendetta on =oultry matters rejected by most Muslims, Molvi A.S. Desai, his tabloid =outhpiece, the Majlis, the sycophantic De Deur Jamiat and other vassals, have plunged =o new depths of deception in their smear campaign.

Cowardly writing under fictitious =ames, aliases, or those of proxies, it seems that nothing is taboo for this self-proclaimed and appointed ulama of Haqq, and even the pork business =s kosher in his nefarious scheme against SANHA – correspondence in =his Majlis matter of porcine and swine is attached herewith.

We also attach several email headers =f some of the other aliases used in correspondence to us in the name of =

- Havest =eat Exporters (Pork Processors)
- Yaqoob Murgiwala
- Evaton =est Muslim Community
- Concerned Muslim Group
- Haroon =brahim
- National Independent Consumer Council
- Zaki =awda
- Ansaarul =aqq
- Carrion Obliterators **
- Farheen =/span>
- Farhaat =/span>
- Mohamed Choonara

*** This is the email address of "Friends of the Scholars of the Truth" who were exposed as =raudently using the postal box address of the National Independent Halaal Trust =NIHT) and Witwatersrand Muslim Butchers Association (WMBA).*

The Majlis has displayed an abject failure:-

1. To provide Moulana Ashraf Ali =hanvi's fatwa on the current stunning method. Merely referring to it or =electively quoting from it is not proper evidence.
2. To produce the affidavits from slaughterers on the flimsy excuse of intimidation as well as the =onvenient tale that it is being protected. Are they afraid that the testimony of =aid troublemakers will not withstand fair questions?
3. To show conclusive evidence on =nimal cruelty. A generalised aggregation of internet articles of non-muslim =dvocacy groups with their own vested interests is not conclusive evidence to the specific case.
4. To influence senior Ulama of the =ountry who conducted their own investigation and approval of the Halaal =laughter and procedure. In fact he has now resorted to childish name calling and =nsults stating that these Ulama have lost their Imaan, are out of the fold of =slam and must re-new their Nikah.

A scholar once remarked "**If =hese are the priests, only God can help the =ongregation**".

BE ASSURED!
POULTRY CERTIFIED BY SANHA IS HALAAL

The Secretary
South African National Halaal Authority

Dear Sir/madam

We are exporters of meat and chicken. We export to Middle Eastern =ountries as well as to Asian countries.

Middle Eastern countries will purchase only if we have been issued with = halaal certificate by an accepted Halaal Authority of your calibre. We primarily deal in pork. We have been told that you do issue halaal =ertificates for hygienically processed pork. Our

entire pork processing process is open for inspection.

We are prepared to pay royalty of R5 per pig carcass. We hope that you will consider positively our application for a halaal certificate to market our pork products in the Middle East.

A response at your earliest convenience will be esteemed.

Yours faithfully,

Derrick Campher (Managing Director)

Mr. Campher,

If that is indeed your true identity then stop insulting Muslims with his shoddy scheme. You should know better than that.

If you are a Muslim who is trying to score points through this devious and despicable letter, then we ask for Allah's intervention in the protection of the sanctity of Muslims.

Yours sincerely

For South African National Halaal Authority

Subject: Puzzled

Mr.E.B.I.Lockhat

Public Relations Officer

South African National Halaal Authority

Dear Mr.Lockhat,

We are puzzled by your reaction. We are at a loss to understand what our 'shoddy scheme' may be. You have totally misunderstood our genuine request.

We showed your letter to a Moslem acquaintance who shed some light on our reaction. According to him there is currently an intense controversy raging in the Moslem community regarding commercially produced broiler chickens being halaal or not halaal. Our acquaintance is of the opinion that perhaps the stress and pressure of this controversy has evinced this reaction from you. Be that as it may, we feel that a reputable organisation of your status should contain its stress disorders and acquit itself with dignity and deportment when dealing with members of the public.

If our request cannot be complied with, you could have simply and with dignity declined. We fail to understand the 'shoddiness' in our request. We have visited Dubai on a business mission and the Moslem gentleman who operates a large meat wholesale trading company was very co-operative and helpful to us for our proposal to export 'halaal' pork. He mentioned that while the proposal of 'halaal' pork is revolutionary, there is scope for its acceptability in view of the tremendous strides of technology. He pointed out that the Koran forbids eating pork on the basis of it being 'filth'. However, science has made great strides since the advent of the Koranic revelation.

Australia is particularly advanced in pork technology. Science has succeeded to isolate and eradicate from the all bacteria responsible for pig diseases. Genetic breeding processes, hygienic farming, and other methods of modern technology have totally eliminated the 'filth' dimension from the pig.

It is based on this scientific achievement which has eliminated the primary cause for the prohibition of pork that has inclined us to approach you for a halaal certificate. We had approached two other Moslem halaal authorities as well. The Cape Town based Judicial Council has not responded. The Halaal Authority which is certifying Karan Beef products has referred us to our esteemed organisation. We wish to draw your attention to Karan Beef who is also a non-Moslem concern. We believe that if Karan Beef in spite of being non-Moslem could be certified halaal, there should be no insurmountable obstacle to grant us a halaal certificate to market absolutely hygienic pork to Middle Eastern countries, especially Dubai and Turkey whom we are told are very highly westernized and progressive Moslem states.

We once again request that you consider our request. You are most welcome to inspect our premises and records. Please do not imagine that our piggeries are like the usual pigsty which presents a picture of dirt and filth. In fact, our piggeries are more hygienic than the chicken processing plants which Moslem organisations certify halaal. We are confident that if you make a personal inspection of our piggeries, you will be more than impressed. We could also negotiate a better royalty.

The prospects for huge profits in a nascent 'halaal' pork trade are immense. Hitherto, as far as we are aware, there is no 'halaal' pork enterprise. As a first mover, we could capture the entire Middle Eastern market. Kindly consider our request seriously and favourably.

A response at your earliest convenience will be esteemed.

I will be leaving on a business trip to the Middle East and China soon. =ut Ms Carmen Williams, our PRO, will be available to consult with you.

Yours faithfully,

Derrick Camphor
