Dear Brother M.S. Rawat

Assalamu alaikum

Your Emails of 20, 26 and 29/09/08 refers.

It is indeed ironic that you request us not to be evasive yet you seem to excel in this area.

Let us refresh your memory. An anti *SANHA* leaflet was published and distributed by the National Islamic Consumer Council on March this year by this hitherto unknown council which you are purportedly representing now, with the only contact details as PO Box 1461, Lenasia.

We responded to this on the 17/03/08 and 14/04/08 to which we have not had the reply or even the courtesy of an acknowledgement. These correspondences can be viewed on our website.

Then further derogatory leaflets against *SANHA* were distributed in August by a group now calling themselves 'Scholars of the Truth' without any other contact details save the same postal box number.

Now we see your "*sudden*" re-emergence on the Tony Naidoo matter, this time quoting three additional postal box addresses as well as the PO Box 1461, Lenasia as belonging to the council that you claim to represent.

The common denominator in these two different matters is that they both relate to the Majlis smear campaign, the use of the same postal box number and the services of attorney Zehir Omar. From the above anyone can surmise as to who is evasive and your comment that you "*desire that the dispute surrounding this issue be discussed constructively by way of correspondence*" cannot be taken seriously whatsoever.

Furthermore, we opine that no useful purpose can be served by your "*desire*" in this matter since the matter of Tony Naidoo and his allegations have been put to rest both publicly and legally. Information on this is also on our website.

Finally, your threat that the matter will be aired in the public forum does not deter us in any manner as you together with your principal, the Majlis, have demonstrated the tendency to publish the allegations anyway without verification.

We will as a matter of communication protocol forward copies of this correspondence to your attorney so that he is aware of either a misrepresentation or a tenuous link with his client, the Scholars of the Truth.

Was Salaam.
